Safety Data Sheet

Section 1: Identification

Product identifier

Product Name  ● GHS Format Example SDS
Product Code   ● 123456

Relevant identified uses of the substance or mixture and uses advised against

Recommended use  ● Hazard Communication & Compliance

Details of the supplier of the safety data sheet

Manufacturer  ● SiteHawk
   709 Nissan Drive
   Smyrna, TN 37167
   United States
   www.sitehawk.com
   support@sitehawk.com

Telephone (General)  ● 615-459-0064

Emergency telephone number

Manufacturer  ● 800-424-9300 - CHEMTREC

Section 2: Hazard Identification

United States (US)
According to OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012  ● Flammable Liquids 2 - H225
   Skin Irritation 2 - H315
   Specific Target Organ Toxicity Single Exposure 3: Narcotic Effects - H336

Label elements

OSHA HCS 2012

DANGER

Hazard statements  ● Highly flammable liquid and vapour - H225
   Causes skin irritation - H315
   May cause drowsiness or dizziness - H336

Precautionary statements  ● Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking. - P210
   Keep container tightly closed. - P233
   Keep cool. - P235
Prevention

Ground and/or bond container and receiving equipment. - P240
Use explosion-proof - electrical, ventilating and/or lighting equipment. - P241
Use only non-sparking tools. - P242
Take precautionary measures against static discharge. - P243
Avoid breathing dust, fume, gas, mist, vapours and/or spray. - P261
Wash thoroughly after handling. - P264
Use only outdoors or in a well-ventilated area. - P271
Wear protective gloves/protective clothing/eye protection/face protection. - P280

In case of fire: Use appropriate media for extinction. - P370+P378
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. - P304+P340
Call a POISON CENTER or doctor/physician if you feel unwell. - P312
IF ON SKIN: Wash with plenty of soap and water. - P302+P352
Rinse skin with water/shower. - P353
Take off contaminated clothing and wash before reuse. - P362
If skin irritation occurs: Get medical advice/attention. - P332+P313
Specific treatment, see supplemental first aid information. - P321

Response

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. - P304+P340
Call a POISON CENTER or doctor/physician if you feel unwell. - P312
IF ON SKIN: Wash with plenty of soap and water. - P302+P352
Rinse skin with water/shower. - P353
Take off contaminated clothing and wash before reuse. - P362
If skin irritation occurs: Get medical advice/attention. - P332+P313
Specific treatment, see supplemental first aid information. - P321

Storage/Disposal

Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. - P501
Store in a well-ventilated place. Keep container tightly closed. - P403+P233

Canada

According to WHMIS

Classification of the substance or mixture

WHMIS

- Flammable Liquids - B2
- Other Toxic Effects - D2B

Label elements

WHMIS

- Flammable Liquids - B2
- Other Toxic Effects - D2B

Other hazards

WHMIS

- In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

Other information

NFPA

See Section 12 for Ecological Information.

Section 3 - Composition/Information on Ingredients
Substances

- Material does not meet the criteria of a substance.

See Section 11 for Toxicological Information.

Section 4: First-Aid Measures

Description of first aid measures

Inhalation
- Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing.

Skin
- In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Wash skin with soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs: Get medical advice/attention.

Eye
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion
- Do NOT induce vomiting. If person is drowsy or unconscious and vomiting, place on the left side with head down. Seek medical attention.

Most important symptoms and effects, both acute and delayed
- Refer to Section 11 - Toxicological Information.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

See Section 2 for Potential Health Effects.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media
- Regular foam, carbon dioxide, dry chemical.

Unsuitable Extinguishing Media
- Avoid the use of streaming water, as this may spread the fire.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
- HIGHLY FLAMMABLE: Will be easily ignited by heat, sparks or flames. Containers may explode when heated. Extremely flammable liquid and vapor.
Hazardous Combustion Products

Advice for firefighters

- Smoke, soot, fumes or vapors, oxides of carbon, various hydrocarbons.

- Structural firefighters’ protective clothing will only provide limited protection.
- Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Move containers from fire area if you can do it without risk.
- Use water spray to cool containers exposed to fire.

---

**Section 6 - Accidental Release Measures**

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions**
- Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

**Emergency Procedures**
- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) Keep out of low areas. Keep unauthorized personnel away. Stay upwind. Ventilate closed spaces before entering.

**Environmental precautions**
- Avoid run off to waterways and sewers.

**Methods and material for containment and cleaning up**

**Containment/Clean-up Measures**
- Stop leak if you can do it without risk.
- All equipment used when handling the product must be grounded.
- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.
- Use clean non-sparking tools to collect absorbed material. A vapor suppressing foam may be used to reduce vapors. LARGE SPILLS: Dike far ahead of liquid spill for later disposal.

---

**Section 7 - Handling and Storage**

**Precautions for safe handling**

**Handling**
- Keep away from heat and ignition sources – No Smoking. Product can accumulate static charge by flow or agitation. Bond and ground equipment when transferring from one vessel to another. Empty containers retain product residue and may be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat, flame, sparks or other ignition sources. They may explode and cause injury or death. Use only with adequate ventilation. Do not enter confined spaces such as tanks or pits without following proper entry procedures.

**Conditions for safe storage, including any incompatibilities**

**Storage**
- Store in a cool/low-temperature, well-ventilated place away from heat and ignition sources. Keep container closed when not in use. Keep away from incompatible materials.

**Incompatible Materials or Ignition Sources**
- Keep away from heat, ignition sources oxidizers and strong acids.

Exposure controls

Engineering Measures/Controls
- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable exposure limit values.

Personal Protective Equipment

- **Respiratory**
  - In case of insufficient ventilation, wear suitable respiratory equipment. Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH/MSHA approved respirator if exposure limits are exceeded or symptoms are experienced.

- **Eye/Face**
  - Wear safety goggles.

- **Hands**
  - Wear protective gloves -neoprene, butyl or nitrile rubber with cuffs.

- **Skin/Body**
  - Where extensive dermal exposure may be expected, either a chemical suit or chemical apron will be needed.

General Industrial Hygiene Considerations
- Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Safety shower and eye wash should be available close to work areas.

Environmental Exposure Controls
- Follow best practice for site management and disposal of waste. Avoid release to the environment.

Key to abbreviations

- ACGIH = American Conference of Governmental Industrial Hygiene
- NIOSH = National Institute of Occupational Safety and Health
- OSHA = Occupational Safety and Health Administration
- MSHA = Mine Safety and Health Administration
- TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures
- STEL = Short Term Exposure Limits are based on 15-minute exposures
- STEV = Short Term Exposure Value

**Section 10: Stability and Reactivity**

**Reactivity**

- No dangerous reaction known under conditions of normal use.

**Chemical stability**

- Stable under normal temperatures and pressures.

**Possibility of hazardous reactions**

- Hazardous polymerization will not occur.

**Conditions to avoid**
Incompatible materials

- High temperatures, sparks, open flames and live electrical circuits.
- Oxidizing agents, strong acids.

Hazardous decomposition products

- In case of fire oxides of carbon, hydrocarbons, fumes or vapors, soot and smoke may be produced.

**Target Organs**

- Central Nervous System (CNS)

**Route(s) of entry/exposure**

- Inhalation, Skin, Eye, Ingestion

**Potential Health Effects**

**Inhalation**

**Acute (Immediate)**

- May affect the central nervous system. Symptoms may include dizziness, drowsiness, lethargy, coma and death. Intentional concentration and inhalation of vapors of this material may lead to nervous system damage.

**Chronic (Delayed)**

- No data available.

**Skin**

**Acute (Immediate)**

- Causes skin irritation.

**Chronic (Delayed)**

- Repeated and prolonged exposure may cause dermatitis.

**Eye**

**Acute (Immediate)**

- May cause mild eye irritation.

**Chronic (Delayed)**

- No data available.

**Ingestion**
Section 12 - Ecological Information

Toxicity

- Material data lacking.

Persistence and degradability

- Material data lacking.

Bioaccumulative potential

- Material data lacking.

Mobility in Soil

- Material data lacking.

Other adverse effects

- No studies have been found.

Other Information

- No data is available on the adverse effects of this material on the environment. Aquatic toxicity values are expected to be in the range of 1 - 10 mg/l based upon data from components and similar products.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging waste

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
